### Testimonials

- I have firm believe that RCR should learn from Dr. Sami Khan's initiative and either make his video lectures as part of regular teaching/curriculum in whole of country. Other radiologists in their own region should take a leaf from his great effort and spread the knowledge which he has been doing selflessly without any monetary gain. A real gem and a rare example of selfless work!!!(UK).
- His purse should be part of the curriculum by RCR for every radiology trainee (UK).
- As always Dr. Khan demonstrates full command over his subject. He is clearly very knowledgeable and very exam oriented. I only wish all training programmes across the UK had this type of formal teaching course incorporated into the training right from ST2 (UK).
- Dr Sami khan sir you are greatest and best radiologist I have ever trained with. Your selfless and dedicated teaching is inspiring and heart-warming. I have learnt the nuances and insights into concepts of radiology through you sir. I wish we had teacher like you back home in India . God bless you sir (India).
- Dr Khan is certainly the best radiology teacher in the united kingdom. I would encourage RCR to include his teaching and lectures as part of the curriculum (UK).
- I cannot describe how incredibly helpful these sessions have been. Reading about a disease and seeing it being presented in this style has been monumental in helping me understand the radiological features. Thank you very kindly, Dr Khan (UK).
- Thanks a lot I have learn Many items. Great respect to you sir (Yemen).
- Another marathon session by Dr Khan. Never seen a teacher teaching with so much enthusiasm and determination. Don't be surprised if lot more candidates pass exam this time and in coming years (UK).
- Thanks for Prof. Dr. Sami Ullah Khan (Saudi Arabia).
- Dr khan is an excellent and great teacher. Never saw teacher like him (Pakistan).
- God bless you, keep up the good work! (Pakistan).
- Great teaching session looking forward to Sunday's session (Kenya).

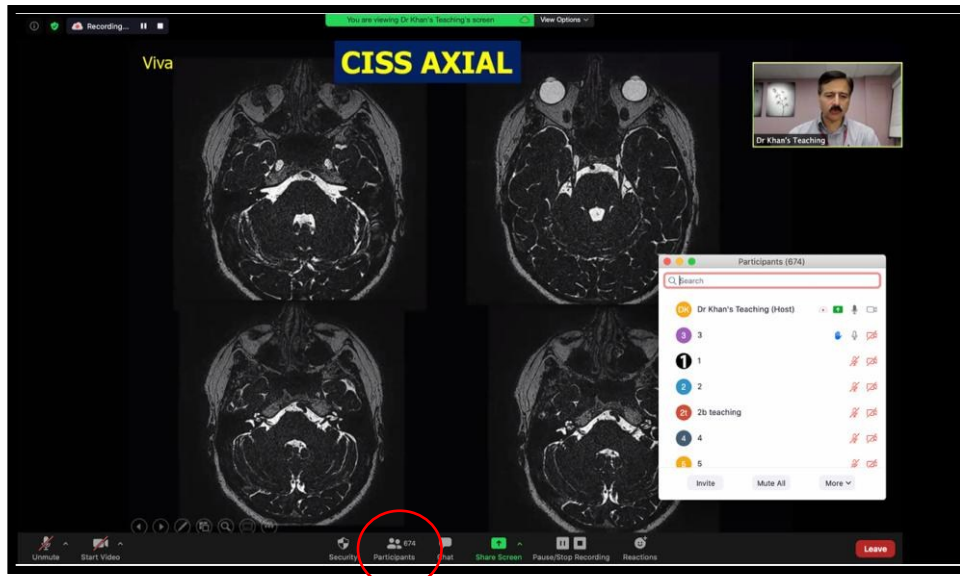

- Good effort, means a lot to residents who are trained from hospitals with inadequate and inefficient training (Pakistan).
- I request, Dr Sami add larynx anatomy and pathology in details and add otitis media and other ear pathology as well because many radiologist haven't clear concepts of these entities (Pakistan).
- Thank you so much for the opportunity (UK).
- Fantastic as always. Great teacher. Thank you (UK).
- It would be great if these were recorded and available for us to watch and digest at a later time. Thank you for taking the time to teach us. Especially when jet lagged and tired (UK).
- Thanks very much again Dr Khan, excellent session content and structure (UK).
- Thank you so much for your time and effort Sir. May Allah reward you immensely (Pakistan).
- Superb teaching session, the best 2B teaching session I have attended. For lectures which we are not able to attend, is there any way of viewing them online at a later date?(UK).
- Yes ,I attended the A-Z Physically on site , few years back and at that time I gave the suggestion to record session and now under whatever reasons you are conducting these sessions I strongly believe that I was my sole idea of this type of teaching which we can see it now ., I want to take advantage to predict that sooner or later you have to conduct actual exam like VIVAS and give scores to participants to make it more popular.
- I am grateful and there is no match to Dr Khans teaching in the whole world (Pakistan).
- Thanks a lot Dr khan and team (Egypt).
- Thank you for making feedback forms easier (UK).
- Repeating my gratitude to Dr Khan (UAE).
- Thank you so much sir for the teachings (Nigeria).
- Great teaching thank you (UK).
- Thank you for such an excellent course (Pakistan).
- Thank you for such a great initiative (Pakistan).
- You're amazing, thank you so much for all your hard work (UK).
- Thank you so much again. I enjoy every session you have given to us. Very good for exam prep and general radiology knowledge :) (UK).
- It was such an amazing class today. I've learnt so much! I didn't know a lot of things (Pakistan).
- Again fantastic session which has really helped my confidence in radiology reporting and knowledge. Thankyou sincerely Dr Khan (UK).
- Amazing and knowledgeable educator who knows how to facilitate an effective and robust teaching course. Thank you very much, Sir (UK).
- Excellent teaching as always. Highly enjoyed and much appreciate your time and effort dedicated to us (UK).
- Excellent (Kuwait).
