Testimonials

- "Very nice, calm, and encouraging demeanor of Dr. Bhavin made it a pleasure to learn. His slides were meticulously created and organized, with excellent case examples, followed by showing us the pathology, and explanation of theory/pathophysiology. It was apparent a lot of time and effort went into making the presentations. My favorite aspect was the two rapid reporting quizzes, with feedback after each one. I appreciated the fact Dr. Bhavin took time to individually answer each question and clear up any doubts. He gave every VIVA candidate a fair opportunity to practice with a number of cases each. Overall, an enormous amount of material was covered in a short space of time. I definitely feel more experienced and confident with rapid reporting after attending this talk." (UK).
- Another excellent session with good, clear explanation of the answers and also allowing the candidates a good amount of time to present their findings. Really enjoyable session. Thank you! (UK).
- This was a really helpful session. The format- lots of cases and clear, concise teaching around cases. Highlighting review areas of each radiograph was really useful (UK).
- Awesome, and also because I've been in viva, great chance, thanks DKT Team (Saudi Arabia).
- "Everything was amazing. Beautiful explanation in short time" (Pakistan).
- Beautiful discussion (Zambia).
- Excellent session (Pakistan).
- Excellent way to learn radiology (UAE).
- Extremely helpful (Pakistan).
- Excellent presentation & lecture (Egypt).
- Excellent efforts (Pakistan).
- Awesome (Turkey).
- Superb (Pakistan).
- Excellent cases, highly informative and addictive (Pakistan).
- Excellent lecture (Oman).

FRCR 2B Autumn 2021 Exam ST4 Teaching: Mini Basildon A to Zee Lower Limb Rapid Reporting
