### Testimonials

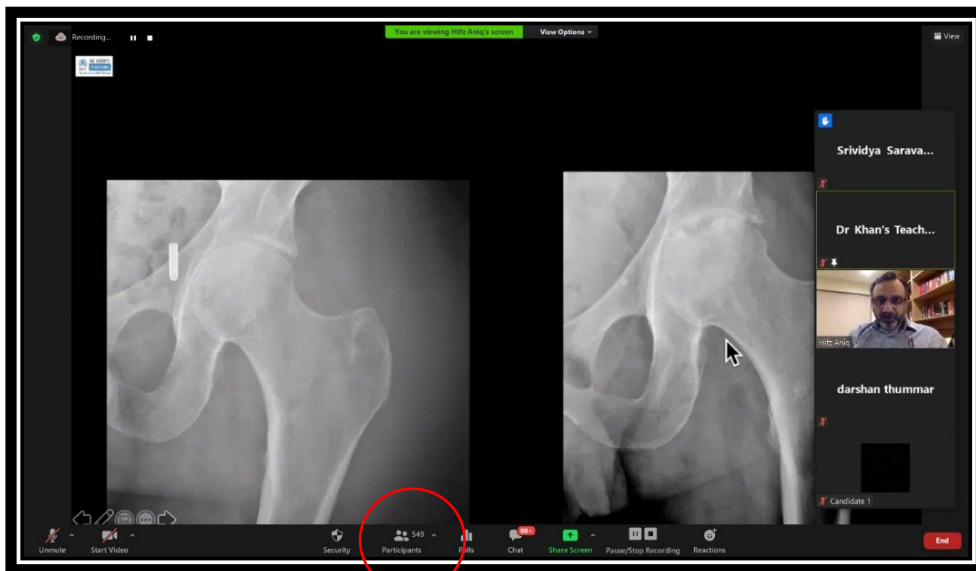

- "Everything. The most detailed teaching one can have in Radiology and that is the key to success for this teaching programme. Personally its most useful to have a couple of pathology cases, particularly 2B level next to anatomy slides so junior trainees see pathology early and get used to it. I am ST5 and follow every session that I can!" (UK).
- Brilliant! I am a first timer here and I certainly not going to miss this lecture series though our time difference is 7 hour (Malaysia).
- Great diagrams of anatomy and variety of cases, Dr Aniq was a great teacher! (UK).
- It's excellent to get session online at home from any part of the world (Canada).
- "Very happy about it. Very grateful to kind faculty for making it free and available for everyone Huge service for radiology science" (UAE).
- Dr Aniq had a wonderful session - it was useful to have the lecture, questions to follow and also my first experience of rapid reporting at the end! (UK).
- Dr Aniq was an excellent presenter with good clinical relevance. Viewing protocols excellent. Rapid reporting practice was a good introduction so we know what will be coming in the future (UK).
- Very educative (Kenya).
- Very well executed and planned, really helpful for FRCR preparations (Malaysia).
- Dr. Msk and his natural teaching style is most valuable (Ukraine).
- Super thankful for the DKT team members, that's a superb effort, can't praise it enough (Pakistan).
- Thank you for such an elaborate review of the topic and sharing your viewing protocols. Great experience of rapid reporting (UK).
- It was excellent! Thank you for the invaluable knowledge. You made it easy to understand (Malaysia).
- "Best National and International Teaching Programme!. Dr. Khan - The Don of Radiology" (UK).

Session 1.10: FRCR Part 1 MSK Lower Limb Anatomy: (i) Plain X-Rays (Part A) (ii) Trauma (iii) Rapid Reporting (FRCR 2B)

- Great teaching Dr. Aniq. Thanks for the selfless efforts of Dr Khan and Aniq! (UK).
- Wonderfully comprehensive (UK).
