## Testimonials

- "Absolutely superb session, much indebted to Dr Moghul and Dr Chua for giving us a mock exam in their own time entirely for free. It was apparent that it was painstakingly and very professionally put together, with some key slices and common anatomical variants. I felt it was high fidelity in terms of difficulty and cases, compared with the real exam. The explanations of the answers, and why it was the correct answer, and how to arrive at the correct answer was the most valuable aspect of the session." (UK).
- The best radiology learning forum (Pakistan).
- You are all wonderful for doing this for free. Thank you! (UK).
- Helped me to identify where I am going wrong (India).
- Everything is perfect (Canada).
- Fantastic session with good explanations (UK).
- Dr Khan's teaching is a blessing. Thank you all the members for putting such effort. God bless you all (Pakistan).
- Great session, thank you for running it. Found it very useful. It has helped me see where I need to focus my revision (UK).
- Dr. Sakib Mogul's concepts are so clear. And the best thing is that he is able to convey these concepts to the audience in a short span of time. It's captivating to watch him teach!!! (Saudi Arabia).
- Excellent learning opportunity and fantastic to have been afforded it so easily. Thank you so much for providing this! (UK).
- Excellent session. Very well delivered by Dr Sakib and Dr Nick. Very tough questions. Has helped me focus my revision to areas of weakness (UK).
- Thank you so much. Sakib is a great teacher, can we have an extra session before next Thursday please these are very useful (UK).
- "Dr Sakib Mughal was excellent today. His session was extremely beneficial" (Pakistan).
- "This felt very challenging and a little concerning for passing the exam compared to other resources. Tough for moral with a pass mark of 80%! That said I was very thankful for it and some excellent tips for more challenging stuff. The extended explanations on the difficult questions very much appreciated" (UK).

## Session: 1.23 FRCR Part I : Mock Exam Anatomy - 1

- Mock exam overall really useful and excellent timing. Challenging questions were useful (UK).
- The questions were very similar to exam questions and covered all units adequately (Pakistan).
- "Format was good, thank you for muting the chat at the appropriate times to allow everyone to think. Sakib's explanations were flawless as always! Nick going over further anatomy around the images again was useful. I always appreciate Dr Khan and team staying behind to answer anyone's questions, thank you so much!" (UK).
- Sakib's teaching skills have rapidly improved in a short period of time. He is excellent. Soon he might rival Dr Khans skill, as his protégée (UK).
- Excellent, concise and relevant (UK).
- Excellent teaching session (Pakistan).
- Excellent session. Hard mock but very useful learning points. Timing and breaks and number of questions worked perfectly (UK).
- Great! (UK).
- Superb! (Pakistan).
- Very nice very comprehensive session, very thankful for it. Thumbs up for you guys (Pakistan).
- Excellent and tough questions (UK).
- Great learning session (Pakistan).
- "Extremely useful!! Thank you so much to Sakib and Nick for your explanations.
- Good variety of questions and varying difficulty. Thank you for all your efforts!!"(UK).
- Very enjoyable session (UK).
- "Great Thanks Dr Khan and your team" (Egypt).
- Really great session overall, well timed, and professionally organised slides. Timings and difficulty were akin to the real exam, so it's very helpful to see how we may do in June and where we can improve before the real thing. Grateful thanks and looking forward to next week's mock (UK).
- "Can never thank you enough Dr Sami. This session was tremendously useful! God bless you" (Pakistan).
- Helpful in preparation for exam (Pakistan).
- It was perfect (Pakistan).
- "Dr Nicks explanations were somewhat briefer and more rushed than Dr Sakib's- I would request Dr Nick to please spend a bit more time on the explanations for next week. I really liked how Dr Sakib had some diagrams interspersed in his slides so he could show the anatomy and explain answer fully. The candidates are excellent and they got the majority of the answers correct, therefore these answers weren't explained by the speakers and we were moved on to the next question. However for us watching at home who got the wrong answer, it would be beneficial to have a little explanation of why that was the correct answer so we can learn and improve. Finally, if DKT team would email a sheet with the answers that would be very helpful for marking, as the connection cut out in some parts so we didn't get to hear all of the answers." (UK).
- Perfect as it is!!! (Saudi Arabia).
- The quiz given today was superb, it made me feel like I was at the real exam (Nigeria).
- Very informative and excellent session (Pakistan).
- Nice lecture for remembering anatomy (Iraq).
- Good to get to have a go in proper exam conditions (UK).
- Great as always (UK).
- Great session (Pakistan).
- So so so useful to have a practice exam! Thankyou (UK).
- Excellent. Very helpful and useful anatomy mock. Very well explained. Thank you (UK).
- Covered almost entire body imaging (Pakistan).

## Session: 1.23 FRCR Part I : Mock Exam Anatomy - 1

- Brilliant test (UK).
- Excellent descriptions given for anatomy by Dr. Sakib (Pakistan).
- Brilliant test. Although it was tough, it identified gaps in knowledge and areas I need to revise further (UK).
- "Really helpful. I liked the fact that other possible questions on the slides were reviewed" (UK).
- Everything is perfect (Canada).
- Really applicable to the exam, thank you! (UK).
- Sakib Moghul explains anatomy very well and gives you tips to identify the structures. A very helpful session indeed (Pakistan).
- Helps me in everyday reporting (UAE).
- Good practice for exam (UK).
- Very useful. Feedback session was v useful. And answered questions and orientated with other useful anatomical structures (UK).
- It was a very valuable session to evaluate ourselves. Thank you very much. Explanation after the test was very comprehensive (Pakistan).
- Everything very useful (UK).
- Excellent mock (Bangladesh).
