Testimonials

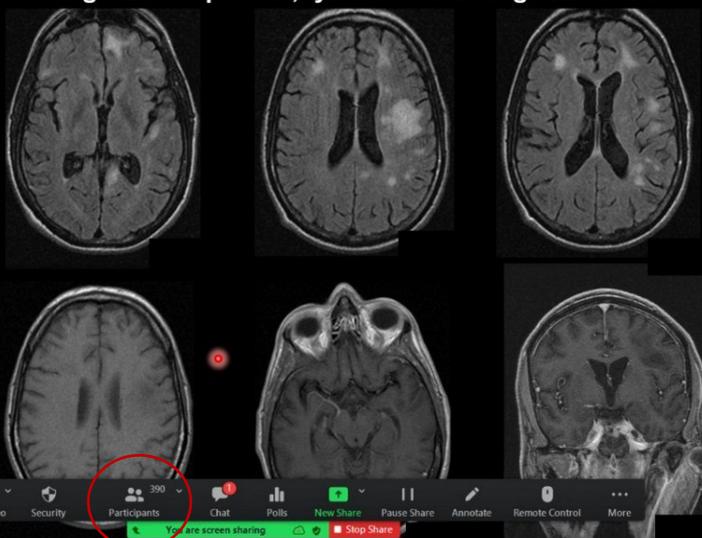

- Super-duper amazing session. Dr Khans lecture was a comprehensive and systematic walk through of white matter diseases and infections, explained in a logical format and very easy to understand way. I especially loved the case examples and images he showed us, because it is so much easier to understand and remember from looking at images as compared with reading from a textbook (UK).
- "10/10! Brilliant, I am sad that Dr Khans CNS series has come to an end, he has made a daunting topic enjoyable to learn" (UK).
- Extremely generous of Dr Khan and team for this effort to educate the global community of FRCR (Malaysia).
- Very helpful, informative and to the point session. Thanks a lot. God bless you all (Egypt).
- Marvelous (UAE).
- Excellent teaching, thank you very much! (Malaysia).
- Truly amazing sessions (India).
- Amazing (Egypt).
- Nothing needs to be improved, it was brilliant. My only suggestion is that please upload the CNS series recordings before all others, because it is a huge and difficult topic which often comes in exams, and I would really be keen to revise and re-watch Dr Khans helpful explanations and top tips, which are much more digestible than textbooks (UK).
- Very good lecture (Pakistan).
- Fantastic teacher (Kenya).
- Great teaching (UK).
- Perfect (Pakistan).
- Thank you very useful (Oman).
- Very good as always (UK).
- Very informative case collection and wonderful teaching skills (Pakistan).
- It is a great lecture for trainees (Malaysia).
- Excellent talk and effort for 3rd world countries students (Pakistan).

Session 3.12: CNS (a) Infections (b) White matter diseases (c) Congenital
