Testimonials

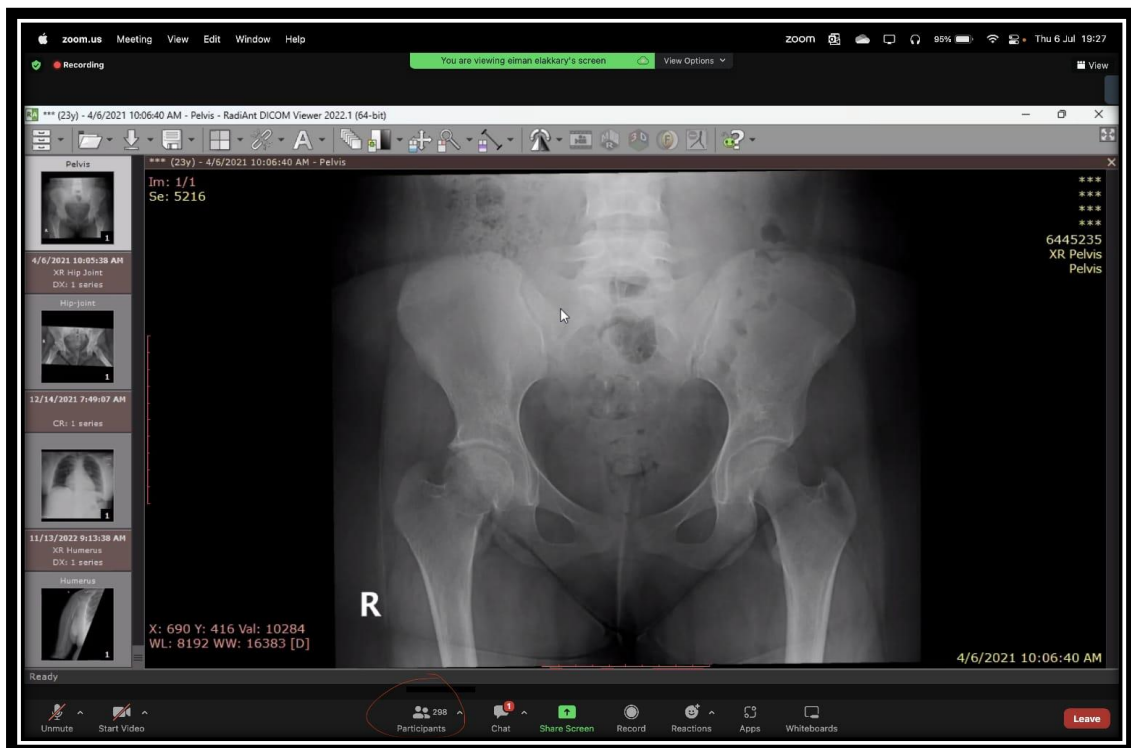

- Dr Eiman's case selection was absolutely wonderful, a real mix of different pathology covering everything from acute, chronic, neoplastic, congenital and more. The cases encompassed every modality including plain film, ultrasound, MRI and CT. The difficulty of cases was very realistic to the real FRCR 2B viva difficulty, and the minimal case histories given closely mimicked the real viva as well. By far the best thing about the session was Dr Eiman's superlative explanations and teaching after each case, she gave such a thorough breakdown of each case, and all of the additional things we should mention in order to score 8 out of 8 for the case in viva. This was long awaited. Nobody else gives these detailed tips and pointers, and I am very grateful to Dr Eiman for her outstanding teaching (UK).
- Absolutely top notch, superb session by Dr Eiman, one of the very best I have seen and I have attended DKT since the start. Please can DKT arrange for Dr Eiman to return for many more viva sessions to come, we demand an encore! (UK).
