Testimonials

- Extremely useful and I now feel a lot more confident on a topic that I thought I would never grasp. Thank you! (UK).
- I always learned something new from your session. Thank you so much (Malaysia).
- I liked the detailed elaboration on different aspects of bone tumours and how to tackle cases in the exam. Lots of revision was very useful to consolidate knowledge (UK).
- Improve my knowledge (Indonesia).
- Just amazing! so thankful for this class (India).

MSK for FRCR 2B Bone Tumours & Mimics (Part 2)

- It is very useful (India).
- Brilliant session (Iraq).
- Very excellent as usual (Nigeria).
- Awesome (Indonesia).
- Super excellent (Nigeria).
- Nice revision (Saudi Arabia).
- Excellent cases and very useful feedback (Algeria).
- Brilliant differentiating points and limited exam based differentials, quite lucid (India).
- I liked the candidate discussion. Giving great useful tips regarding 2B exam and how to think of and deal with cases (Egypt).
- Tips and tricks on how to approach the case was the most useful part of the session (Malaysia).
- Conceptual approach (India).
- Clear concepts (Pakistan).
- I liked the variety of bone tumors (Saudi Arabia).
- Explanation was valuable (Egypt).
- All aspects are valuable and exhibit detailed excellent information (Pakistan).
- All are valuable (Yemen).
- Too many interesting cases were discussed (Saudi Arabia).
- Good illustrated differential (Bahrain).
- Every single word was useful (Pakistan).
- All of it was useful! Great cases and impeccable explanation (India).
- I liked the teaching style, from the known to the unknown (Nigeria).
- Very good exam oriented cases and how to approach them (Sri Lanka).
- Very useful (Oman).
- Its good (Yemen).
- Thank you for useful subject (Oman).
- Best session (Pakistan).
- Excellent teaching session (Algeria).
- Informative session (UK).
- Excellent session (Pakistan).
- Excellent delivery and engaging (UK).
- Excellent thanks a lot with respect (Yemen).
- Marvelous (Pakistan).
- Everything was useful (Saudi Arabia).
- Good cases (UK).
- I liked the case based discussions (Zambia).
- Systematic approach and hits for exams in each case (South Africa).
- I liked the case presentation and discussion (Iran).
- Overall excellent lecture (UAE).

- Brilliant (South Africa).
- Excellent (India).
- Thank you for amazing lectures and discussions (Iran).

MSK for FRCR 2B Bone Tumours & Mimics (Part 2)

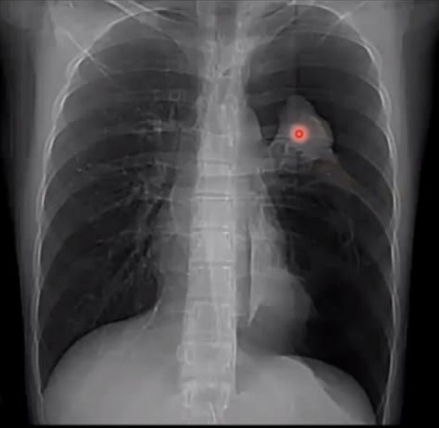

- Awesome (Indonesia).
- Nice (Pakistan).

DR KHAN'S
TEACHING

Mets - Osteosarcoma

Dr Khan's Teaching

Lung with Pneumothorax

Soft Tissue

Detailed description: This slide, titled 'Mets - Osteosarcoma', features two radiological images. The left image is a chest X-ray showing a pneumothorax in the right lung, indicated by a red dot. The right image is a soft tissue X-ray of the spine, showing a vertebral body fracture. The slide includes logos for 'DR KHAN'S TEACHING' and a small portrait of Dr. Khan in the top right corner.
