## Testimonials

- Thanks for simplicity in teaching making radiology a piece of cake (Yemen).
- I liked the repetition of important facts and making them understand in easy format so those things get lodged in our minds. Dr Khan's lecture and viva sessions are extremely useful not only for exam-going students but anyone who wants to refresher course (India).
- The session was great. It helps identifying the diagnostic criteria in a radiograph and then determining the relevant differential diagnosis in a very smart approach. The technique of teaching is outstanding and the effort put in the session is invaluable (Egypt).
