Testimonials

- Excellent teaching with great diagrams!!!. Excellent breakdown of cases and love love love the differential diagnosis lists. Well thought out cases (UK).
- The sessions cover high-yield topics with a special focus on important 'easily missed' review areas. Once the mind knows it, the eyes will pick it up! Thank you as always (UAE).
- The way of teaching and the effort put in the lecture, no doubt, are extraordinary. Attending your lectures Sir always add to my skills and knowledge. Thank you so much for your time and huge efforts, much appreciated! (Egypt).
- Excellent session- good format of mixing 2B viva practice along with structured teaching alongside the case (UK).
- Thank you so much! I always learnt much from your session. It motivates me after every session. Thank you again! (Malaysia).
- No words to express, that's why always mentioning very informative and helpful (UAE).
- This bag of mixed viva cases is so useful as it simulates the real exam scenario. In real exam, we can't expect the type of cases that will come out (Malaysia).
- Great selection of cases! The interpretation is very methodical! The presentation is to the point with a fruitful brief discussion highlighting the key radiological findings on each case (Egypt).
- Excellent session as always. Dr Sami Khan is a legend (Pakistan).
- Thank you Dr Khan for providing us this opportunity, to have such a elaborative discussion/exam cases in teaching mode (Pakistan).
- Today I found the teaching section and the images like Le Fort fracture and Mirrizie's syndrome extraordinary (UK).
- Excellent teaching session by Dr Khan with a great variety of cases and excellent learning points! (UK).
- Excellent session. Dr Khan is highly enthusiastic about teaching (India).
