## Testimonials

- Priceless and beautiful work by Dr. Khan. We can see tremendous effort put together into combining slides and DICOM cases which made the teaching's experience effective and practical. The session is well structured for maximum benefit. We feel blessed that we are part of DKT learning pathway. I do not miss rediffusion of any session. The more we see cases the better we get (Algeria).
- Just amazing, beyond description. Pure dedication to teach. Excellent (UAE).
- Thorough and detailed explanation of each case was most useful. So many important cases were first time seen by me. The session is very helpful for building concepts and differentials. Excellent session as ever. Thank you Dr. Khan (Pakistan).
- The cases and Dr. Khan's teaching style always top notch (Zimbabwe).
- Case and image description followed by viva and theory brings in total insight to the pathology. Thank you so much Dr. Sami (Nepal).
- The way the cases are discussed was very useful. Overall a very good crop of cases (India).
- Excellent cases with clear detailed explanation and fruitful discussion (Egypt).
- Nice case selection! (Netherlands).

- It improves my knowledge about vascular anomaly of brain (Yemen).
