- Dr Aniq is a gem in the DKT faculty. His teaching is unmissable. He explained everything so excellently that anyone from novice to expert could follow it and could learn something new from his session. The didactic part of the teaching was just the right pace and had a great number and variety of cases to illustrate what Dr Aniq was teaching. My favourite part of Dr Aniq's teaching is his unique beautifully crafted diagrams which explain all the concepts so neatly and understandably. I have finally understood arthritides thanks to Dr Aniq, after so many years of trying and failing to learn it by myself (UK).
- The teaching was amazing and looking at hand X-rays is going to be somewhat easy after attending today's lecture.. too good .. and many thanks to Dr. Sami sir for arranging the lecture (India).
- This session is an absolute must watch, such a huge and tough topic condensed and expertly explained in two hours. An essential topic of FRCR curriculum. I haven't found any better resource for learning arthritis (UK).
- This was a remarkable session by Dr. Aniq and one of the best sessions overall. Excellent teaching and presentation prepared by respected Dr. Aniq. I learnt so much today. Many confusions were resolved. Thanks to Dr. Khan for finding such gems (being a gem of a person himself). Your efforts for the teaching are matchless. Please keep doing this for all of us who learn things from you even after our training and exams. I am really grateful to DKT team and Dr. Aniq (Pakistan).
