Testimonials

- The presentation of this session is excellent. It is succinct and exactly what is required for the exam. Very well paced and explanation of each point. This for sure is on of the best DKT sessions I have attended (UK).
- Brilliant session in a really needed topic for the exam, more and more session are needed if possible, many thanks (Egypt).
- Excellent session. And the best thing was it was exam oriented with amazing teaching. To the point and simple. Need more sessions like this (Pakistan).
- Excellent session. Thank you so much for taking the time to conduct this truly valuable session (Pakistan).
- Well-organised lecture and the approach to each case. Information is specific and to the point. Interesting to follow (Sudan).
- Awesome forum to learn radiology. Thank you so much Dr. Khan and Dr. Sam! (Pakistan).
- Very informative (France).
- It was very helpful learning how to accurately report chest in shorts and different emergency (UK).
- Excellent Initiative to teach the short cases, as its the new component in exam and very challenging to attempt without proper guidance (Pakistan).
- The system of short reporting, ICU chest cases and MSK cases were very well illustrated (UK).
- Wonderful lecture and guidance! (Malaysia).
- Excellent cases and explanation by Dr. Sam Reefath (UK).
- It was great, thank you so much (Egypt).
- Very good and informative (UK).
