### Testimonials

- Lots of interesting cases which are exam oriented too and great teaching on how to approach them and the management aspect like referral for suspected sarcomas which overseas candidates are not conversant with (India).
- Good focus on MR discussion for various cases, which was highly informative. As per the announcement, Dr. Khan's efforts are highly appreciated. This platform is one of a kind and it has truly impacted our exam preparation as well as our day to day practice in radiology, especially for those of us practicing in other parts of the world (Ethiopia).
- A wide variety of interesting cases were selected which is useful to improve general anatomical and radiology knowledge. Dr. Khan asked thought provoking questions to the candidates to gauge their clinical reasoning and to push them to their potential (UK).
- An amazing news about creating a charity. Beautiful idea, I would love to contribute once I qualify as a radiology consultant. Thank you Dr. Khan! (UK).
- The lecture was very helpful for me. Very nice cases were provided by Dr. Khan. The style of the presentation was easy and very nice (Jordan).
