Testimonials

- The lecture was extremely helpful for me. The first part of the lecture presented by Dr. Sajid, covered the main topics about knee pathology, and by the end of this nice session I now feel that I am able to deal with knee MRI and I have achieved maximum benefit from it. Regarding the second part of the lecture - it was presented by Dr. Khan - who gives us very helpful hints to deal with a variety of difficult cases with good approach and logical thinking every day. Thank you Dr. Khan for your efforts (Jordan).
- Re-attending this great session is really recommended, very important tips for reporting knee MRI and great viva session with super selected cases by the great teacher - Dr. Khan, really appreciated effort, many thanks (Egypt).
- Thank you to the presenter and the team. Fortunate to have access to this valuable stream of knowledge, ever-flowing! (UK).
- The knee pathologies were excellently presented and also the spot diagnosis cases by Dr Khan! (Australia).
- The description of MRI sequences and the correlation of lesions on different imaging modalities were well elaborated (Nigeria).
- The discussion and teaching by Dr. Khan on how to effectively present and interpret the cases were the most valuable (Myanmar).

MSK For FRCR: (1) How to Report MRI Knee (2) Exam Viva Cases

- Knee MRI was useful to learn, as in training it is not so well explained (Austria).
- Both the cases and the knee lectures were useful (Zimbabwe).
- Useful revision. Excellent insight into cases which helps accurate reporting of scans especially in urgent setting (UK).
- Excellent insights on the knee MRI - a very difficult concept yet beautifully explained (Pakistan).
- We are looking forward to more lectures in the future! (Jordan).
- I liked how sir started from basics. Took it the third time as a refresher course! (Pakistan).
- I liked learning how the pathology of the knee is a wide field of pathology and MRI is giving a chance of a full pathology description (UK).
- Loved the elaboration on the mechanism on injury and impact (Pakistan).
- Wide variety of cases clearly explained by the speaker (Malaysia).
- An amazingly understandable session (Australia).
- It was useful for both clinical and exam purpose (Sri Lanka).
- Excellent case presentation (Canada).
- The concise MRI knee part was good (Thailand).
- Excellent teaching session (Nigeria).
- The best (Pakistan).
- Superb session! (Pakistan).
