Testimonials

- We became familiar with fluoroscopic diagnoses that we do not frequently encounter in daily practice because of this session (Türkiye).
- Brilliant session, clear concise and very important messages and brilliant case selection, more similar sessions would be very helpful as fluoroscopy is defective in our practice, many thanks to the great teacher and Team DKT (Egypt).
- Good cases! The presenter's deep expertise made me wonder if she was a previous examiner. Her level of detail on the UK 2B exam was outstanding (UK).
- The lecture was incredibly enjoyable and informative. Dr. Amun presented several important and tricky fluoroscopy cases - the kind many of us find difficult to interpret. There was an excellent explanation of the management of these cases, with a focus on differential diagnosis. Overall, this is an essential lecture for both exam preparation and clinical practice. Thank you to Dr. Khan and his guest for this wonderful effort (Jordan).
- Awesome platform for learning radiology. Thank you so much Dr. Khan and his brilliant team (Pakistan).
- Diagnosis and reduction of intussusception plus upper GIT studies were well elaborated (South Africa).
- The fluoroscopy cases discussed today are very important, cover various themes, and the explanation was great (Algeria).
- Very nice explanations with written slides and good images. Thank you very much (Pakistan).
- Fluoroscopy is not so often encountered lately, therefore the lecture was helpful (UK).
- The real life and post-op flouro cases were well taught (Saudi Arabia).
- Very helpful and excellent session. Thank you, Dr. Khan for your efforts (Jordan).

- A very rich reading on a very important topic: fluoroscopy (Algeria).
- The teaching session was useful (Kenya).
- Very good paediatric cases (UAE).
- All aspects of the session were useful (India).
- It was perfect (UAE).
- Classical cases were useful (UK).
- Fluoroscopic studies were well elaborated (Nigeria).
- The teaching was useful (Nigeria).
- Fluoroscopy cases with management were well taught (UK).
- Fluoroscopic imaging and management were useful (Pakistan).
- Good lecture for unfamiliar cases in practice (UK).
- Very good cases, most needed session (Pakistan).
- Everything taught was useful (Pakistan).
- I liked the real life cases. Excellent tutor! (Türkiye).
- Excellent choice of cases (UK).
- Case based demo was useful (Pakistan).
- Case contents and explanations were useful (UK).
- Fluoroscopy cases were nice (UAE).
- The cases shown were very useful (Pakistan).
