Testimonials

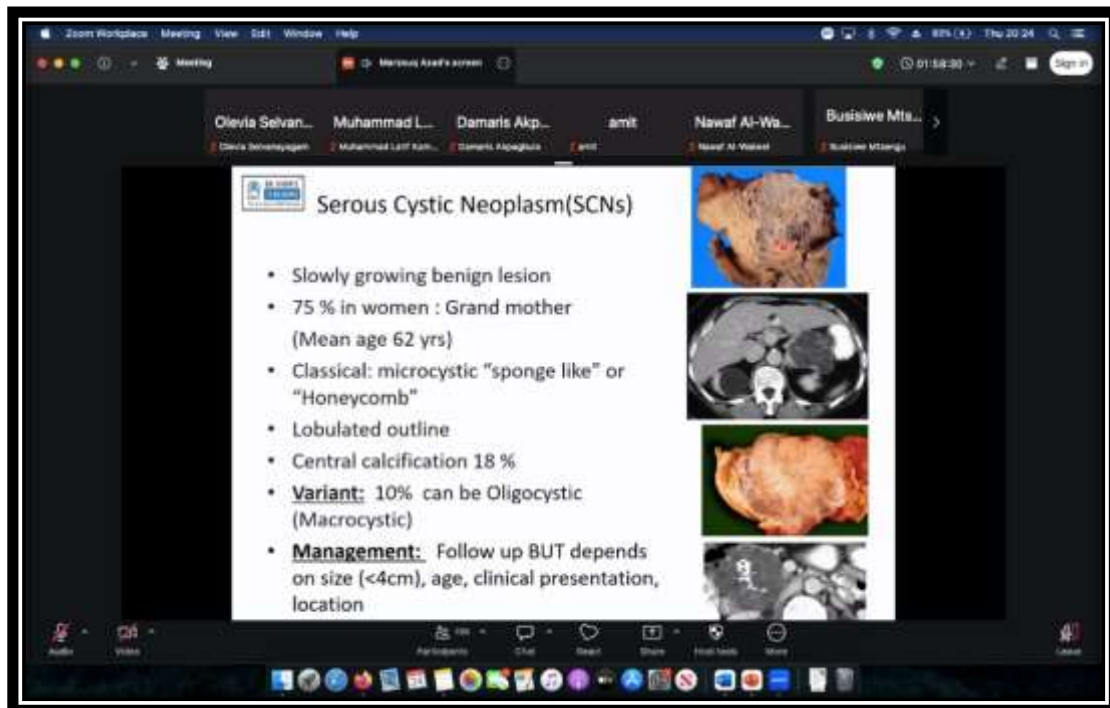

- The lecture was really helpful for FRCR 2B Viva preparation. The cases are well selected, clinically relevant, and close to the style of the actual exam. The explanations are clear and help improve both image interpretation. Thanks Dr. Khan and his team. They are my biggest source of Radiology learning (Somalia).
- It was too good as always. Although I have cleared my exam in April 2026, but I just went through Dr. Sami's session because they are high-yield and highly valuable (Pakistan).
- The lecture was absolutely superb and highly valuable. A standout feature was the inclusion of numerous "trick" cases and unconventional scenarios. Highlights included a comprehensive explanation of sickle cell anaemia and its associated radiological manifestations in both the chest and brain, as well as an excellent overview of laryngeal anatomy that reinforced concepts from previous lectures. There was also a great presentation on NF1 and its key radiological features. Overall, the value of these lectures by Dr. Khan is immeasurable; he presents fascinating, highly instructive cases accompanied by detailed explanations of the differential diagnosis. Thank you to Dr. Khan for this outstanding effort (Jordan).
- Going back to the basics and using Chapman to assist with reference was most useful. The cases were very informative (South Africa).
- Very nice cases and comprehensive teaching (Saudi Arabia).
- Interesting cases. Anatomy of larynx –helpful (UK).
- All of it was useful (Sudan).
- Good collection of cases was useful (India).
- The cases and teaching on them was most useful (Nigeria).
- Viva cases were useful (Yemen).
- Thank you very much Dr Sami for providing us such an organised and amazing sessions every week (Pakistan).

Pre-recorded FRCR 2B Practice Viva (Session - 168) - THE POT POURRI OF FRCR VIVA CASES - Top Tips, Differentials, "A to ZEE" & More! (Session 18)

- Very interested lecture (France).
- Cases and viva was useful (Sri Lanka).
- The teaching by Dr Khan was most useful (Nigeria).
- Very helpful and excellent session. Thank you Dr. Khan for your efforts (Jordan).
- Lecture content was useful (Nepal).
- Detailed explanation of laryngocele by Dr Khan was useful (Nigeria).
- Everything was useful (Jordan).
- Presentation style was useful (UK).
- Beautifully explained concepts and cases! (Pakistan).
- All cases were useful (Egypt).
- Teaching points were useful (Sudan).
- Amazing cases (Iraq).
- Every single aspect of the session was useful (Nigeria).
- The variety of cases especially the case of sickle cell disease with brain findings was useful (Pakistan).
