Testimonials

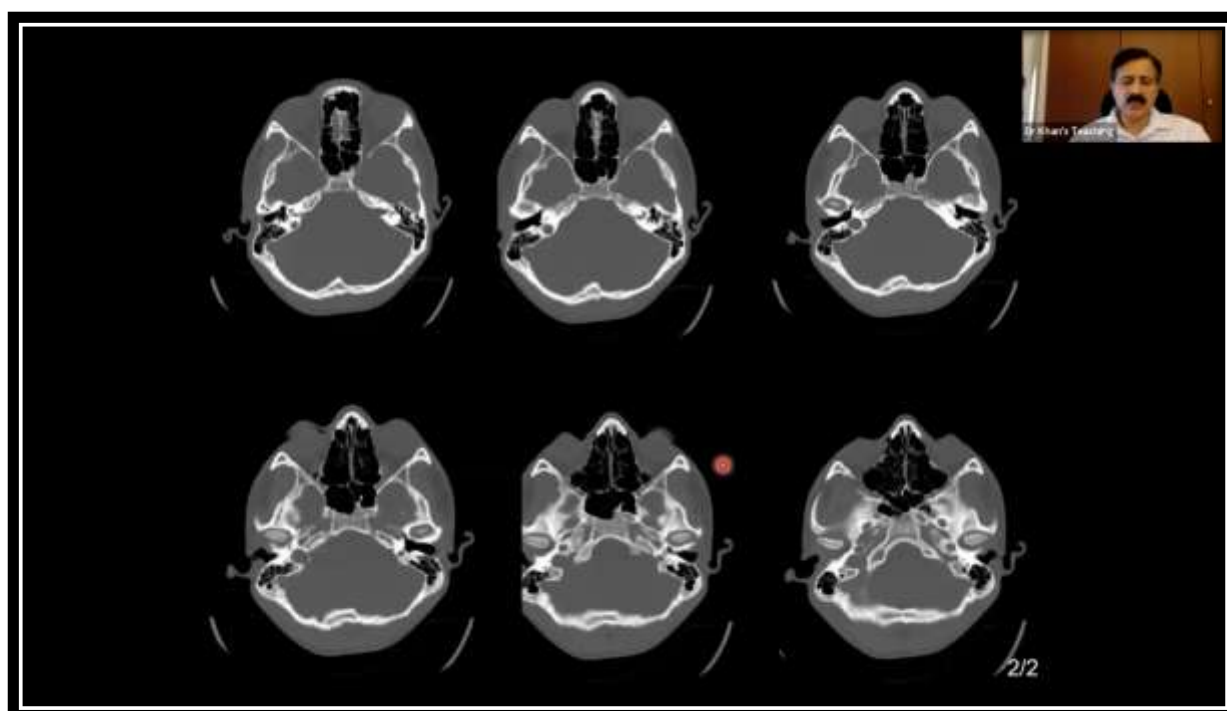

- Brilliant session, very important take home messages and very important cases for both practice and exam. Many thanks to our great teacher Dr. Khan and team DKT (Egypt).
- Detail anatomy and way of thinking to get the diagnosis was most useful. Very excellent lecture (Myanmar).
- This is a continuation of the lecture series on brain and central nervous system (CNS) imaging. This particular lecture provided an excellent overview of the radiological anatomy of CNS vasculature across various modalities—including CT angiography, MRI angiography, and digital subtraction angiography—as well as an explanation of the most common vascular pathologies affecting the CNS. True to Dr. Khan's signature style, the presentation was engaging and fluid, focusing on key points relevant to the exam and differential diagnosis. Listening to these lectures daily enhances the scientific knowledge essential for anyone preparing for FRCR exam. Once again, I would like to thank Dr. Khan for this outstanding effort (Jordan).
- Focused teaching with explanation provided to give more information was useful (UK).
- Observation cases which I am very vulnerable were useful. Hope familiarization makes it easier (UAE).

- Great teaching, cases and well-covered topic were useful (Saudi Arabia).
- Excellent cases with detailed explanations. Thank you very much (Pakistan).
- Very rich reading of vascular CNS cases was useful (France).
- The collection of images was useful (Sri Lanka).
- Each detailed explanation after each images was useful (Malaysia).
- Every aspect of the session was useful (Nigeria).
- Khan sir always good (India).
- I think these classes are hope for me that I can pass my exam (Pakistan).
- Amazing selection and knowledgeable session (Sudan).
- Good, as usual excellent teaching by Dr. Khan (Malaysia).
- Very useful reading (France).
- Excellent teaching session. I always enjoy the sessions (Nigeria).
- The explanation of anatomy was excellent (Saudi Arabia).
- Excellent session with great variety of cases (India).
- Review of vascular lesions and vascular territories was useful (UK).
- Anatomy and approach was useful (UAE).
- Difficult cases are explained so nicely that it becomes easy for us (Pakistan).
- Very helpful and excellent session. Thank you Dr. Khan for your efforts (Jordan).
- All was useful (Iraq).
- 10 out of 10 (UK).
- Teaching was useful (Myanmar).
- The teaching was useful (Nigeria).
- Concepts was useful (UK).
- Everything was amazing (Egypt).
- The detailed vascular anatomy was useful (Pakistan).
- Presentation style was useful (UK).
- Cases were useful (Sri Lanka).
- Variety of cases followed by mail teaching points to consolidate knowledge was useful (UK).
- Exam tips were useful (India).
- Cases are very unique (Pakistan).
- Being interactive and based on the most important day to day cases was useful (UK).
- Everything was useful (Jordan).
- All of it was useful (Sudan).
- Very good lecture for neuroradiology (UAE).
- Good discussion was useful (India).
- Vascular lesions and ischemia (Sudan).
- Cases and tips were useful (Türkiye).
- All aspects were useful (Nigeria).
- Brain is wide field of pathology!! (UK).
- All teaching was excellent as usual (Pakistan).
- Typical images used and detailed explanations were useful (Saudi Arabia).
- DSA cases were most useful as I haven't seen them before (Pakistan).
- Excellent content as always (Pakistan).
- Excellent session as always by Dr Sami (Pakistan).
- Very impressive (Nigeria).
- Absolutely perfect (Pakistan).

- Very informative (UK).
- Excellent as usual (Jordan).
- Amazing session by Dr Sami as always (Pakistan).
- Excellent. Thank you for this resource (UK).
- Learned well (Pakistan).
- Profound gratitude for presenter and team (UK).
- Excellent presentation (Nigeria).
- Excellent!!! (UK).
- Great session (Sri Lanka).
- Superb (Pakistan).
- Thank you very much for such an amazing session (Pakistan).
- Images and discussion were useful (UK).
- Thank you very much for such wonderful sessions (Pakistan).
- How to work out on young stroke was most useful (UK).
- The quality of cases discussed was useful (Nigeria).
- Interesting cases (Nigeria).
- Explanations were useful (Malaysia).
- AV dural fistula approach was useful (UAE).
- Varieties of cases was useful (Nepal).
- Review of anatomy with clinical relevance was useful (UK).
- Great cases (UK).
- Excellent teaching session (Nigeria).
- Superb 🦅 (Pakistan).
- Very helpful lecture (UAE).
