Testimonials

- Brilliant session as usual, super selected cases with very important take home messages and really insightful teaching of our great teacher Dr. Khan, many thanks for time and effort (Egypt).
- Every aspect of the session was useful. The cases were brilliant and high quality (Nigeria).
- What I would like to say is that with every day you listen to Dr. Khan's lectures, you find yourself embarking on a journey toward true radiological knowledge. In these sessions, you discover numerous high-value insights shared by an expert who possesses the ability to convey information simply and without unnecessary complexity. Regarding the lecture itself, I want to highlight the inclusion of various "tricky" cases that offered concepts crucial for both the exam and clinical practice—such as the detailed anatomical breakdown of the temporal bone alongside cases of otitis media, mastoiditis, and their complications. There were also many other fascinating cases, including examples like gastrinoma and gliomatosis cerebri. Ultimately, it is worth noting that despite the abundance of available resources, Dr. Khan's teaching sessions remain the best resource for exam preparation. again, thank you Dr. Khan for this outstanding effort (Jordan).
- Amazing and great teaching. A very valuable resource for learning radiology (Pakistan).
- The teaching aspect of the cases was useful (Ghana).
- Wow, very amazing cases (Iraq).
- It was a good session (Sri Lanka).
- 10/10 (Qatar).
- Very useful (Türkiye).

Pre-recorded FRCR 2B Practice Viva (Session - 170) - THE POT POURRI OF FRCR VIVA CASES - Top Tips, Differentials, "A to ZEE" & More! (Session 20)

- Teaching points were useful (Sudan).
- Easy to follow and being interactive was useful (UK).
