- Total feedback received from 87 participants

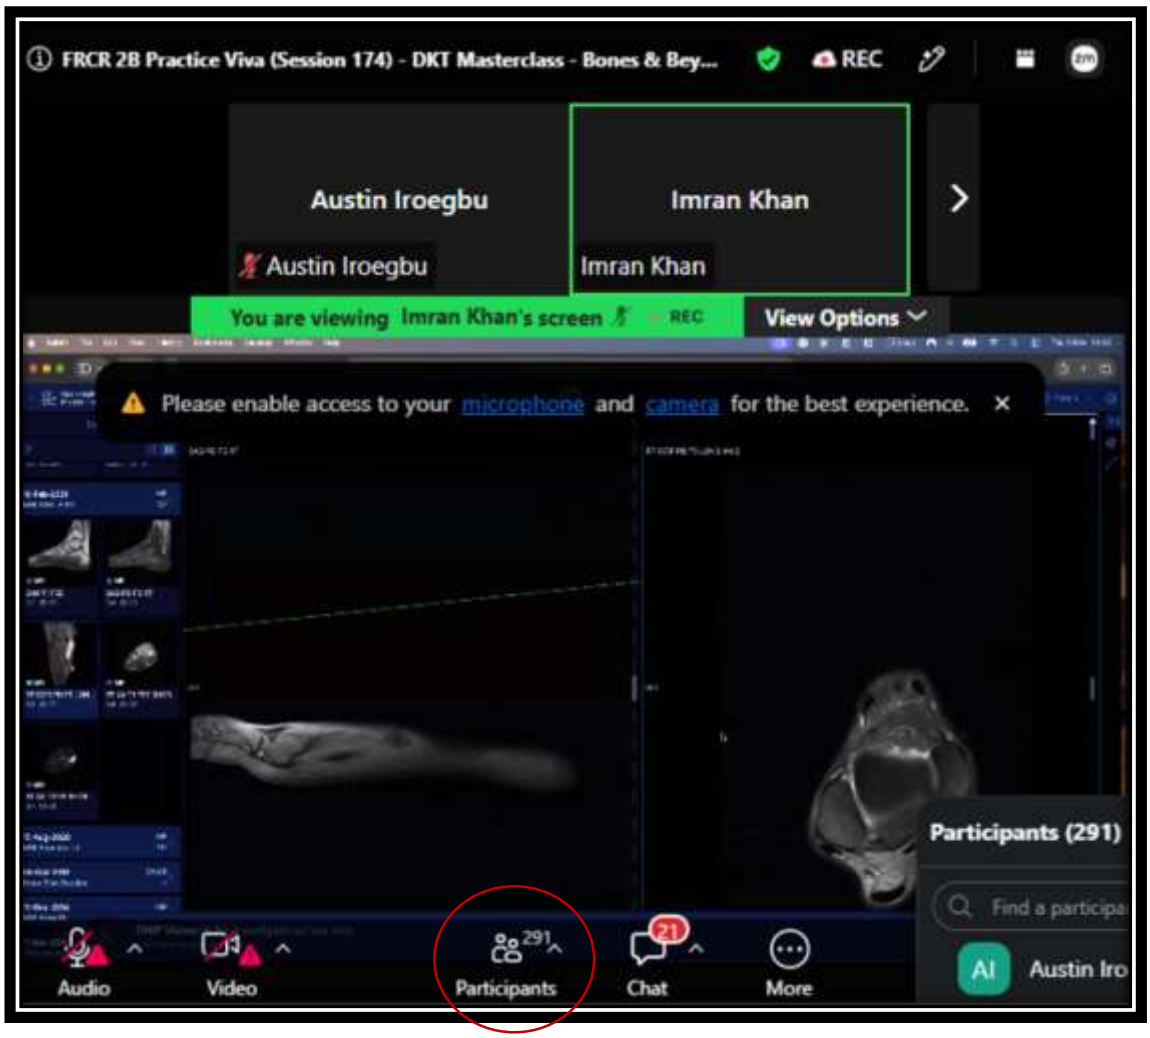

Testimonials

- The lecture was thoroughly enjoyable and provided crucial insights for the exam. Dr. Imran Khan presented several musculoskeletal radiographs that were highly deceptive; through his excellent explanations, he demonstrated how such cases can pose a real challenge for an examinee. Dr. Khan's primary objective was to encourage "thinking outside the box," while emphasizing the vital details and radiological signs that candidates often overlook. This, of course, reflects Dr. Imran Khan's extensive expertise in the field of musculoskeletal radiology. Finally, I would like to express my gratitude to Dr. Sami Khan and his esteemed guest for this wonderful effort (Jordan).
- I have taken Dr. Imran's classes before and it has never been a routine, usual session. He brings cases we don't expect to see. He points out our mistakes and teaches us to prepare us for real life. I kept thinking the whole session, if these cases come in exam, I am probably gonna fail but the thing is, at the end of the session I have learnt. I know things I didn't know before (Pakistan).
- Brilliant session, very interesting cases, very important tips and take home messages, many thanks Dr. Imran and Team DKT (Egypt).
- The variety of the cases beyond the MSK were excellent, but he also included the mandatory cases in the session which was useful for exam preparation (Thailand).
- Most of the cases were challenging but had good teaching points. Thank you for your time & effort (Kuwait).
- The collection of subtle important radiographic findings was useful which would have been very challenging in an exam sitting (Sri Lanka).
- Very helpful and excellent session. Thank you, Dr. Khan, for your efforts (Jordan).
- Very interesting MSK lecture (France).
- The emphasis to look for each and every bone and joint in the given case not to just get stuck on one thing and also how to be efficient with time management was really helpful! (Pakistan).
- Excellent cases. Very close to exam cases (Saudi Arabia).

- Routine daily pathology was useful (Qatar).
- The NEW cases with real message were useful (Somalia).
- I found it helpful to learn to look carefully for small pathology (UK).
- Good discussion of cases (India).
- Excellent routine cases with detailed evaluation (CAR).
- Variety of cases was amazing (Kuwait).
- Truly amazing and tough cases (Iraq).
- Comprehensive review of images is helpful in routine practice as well as for viva sitting (Pakistan).
- Good general cases for viva practice were useful (UK).
- Excellent teaching and interesting cases (UAE).
- The exposure to MSK cases was useful (Sudan).
- A variety of MSK cases were well presented (UK).
- Everything was useful (UK).
- The feedback session was the most useful (Nigeria).
- The viva cases were useful (UK).
- MSK is a really complicated radiology subspecialty and teaching classes like these are such a great opportunity to overcome the shortcomings in this field!! (Pakistan).
- Really good to see another examiner's style (UK).
- Excellent cases (UAE).
- All aspects were useful (Nigeria).
- Explanations were great (Pakistan).
- Very interesting cases (UAE).
- Double pathology in one case was very good to see (UK).
- Each aspect was useful including the cases and teaching (Pakistan).
- Cases and teaching were useful (Sri Lanka).
- Very interactive comprehensive session (Pakistan).
- All aspects were useful (UK).
- We are looking for more lectures in the future (Jordan).
- Differentials of day to day cases were useful (Pakistan).
- Finding description was the most useful (UAE).
- Lecture content was amazing (UK).
- The emphasis on X-Rays for diagnosis before moving to cross sectional imaging was useful (Pakistan).
- The cases were useful (Egypt).
- Concise and simple session (South Africa).
- Explanation by the moderator was most useful (UK).
- Cases and their discussions were useful (Pakistan).
- Very interesting (UK).
- This was a great teaching session. I hope we get to see Dr. Imran more (Pakistan).
- Very informative (Saudi Arabia).
- Very useful (France).
- The cases were very diverse (Pakistan).
- Excellent session as usual (UAE).
- Very educative (UK).
