Testimonials

- The session is really brilliant, very important take home messages for both real life practice and 2B exam, many thanks for precious time and sincere efforts (Egypt).
- It's a great support for us radiologists doing women's imaging without any formal tailored training in it (UAE).
- Ways of explanation and how to report in exam and how to consider for further management were useful (Myanmar).
- Practice cases were useful. Very good presenters who gave focused and constructive feedback (UK).
- The exam-based feedback and instructions by the speakers were useful (Türkiye).
- MRI breast was most useful, since it’s not done in our department (Pakistan).
- The case teaching was most useful (South Africa).
- The variety of cases was useful (Nigeria).
- Explaining the pathology very clearly. Differential diagnosis list in some of the cases was useful (Pakistan).
- Breast intra capsular implant rupture cases were useful (UAE).
- The feedbacks and explanations were useful (Norway).

- Lecture content was most useful (UK).
- Mammography images were useful (India).
- All was useful (Iran).
- The lectures are simplified. More images are shown (Nigeria).
- The what next advises were useful. Candidates out of Pakistan are unaware of the NHS practices (Pakistan).
- The number of cases were useful (India).
- Variety of cases was useful (Nigeria).
- Content was most useful (Oman).
- A large number of cases were shown (Sri Lanka).
- Every aspect was useful (Pakistan).
- Teaching points were useful (Sudan).
- The cases were useful (Pakistan).
- Case discussion was most useful (India).
- Being interactive and practical was useful (UK).
- Everything exam related was useful (Pakistan).
- The viva cases were useful (UK).
- Multiple cases were useful, covered almost all pathologies related to the breast (Pakistan).
- Broad areas covered in single session! (India).
- It was perfect (UAE).
- Well-explained breast imaging with variety of cases (Myanmar).
- Thank you Dr. Sami for arranging such a awesome session (Pakistan).
- Good cases were useful (Sri Lanka).
- MRI and PET scans were useful (UK).
- The cases and exam tips were useful (Türkiye).
- Good cases with detailed explanations were useful. Thank you very much (Pakistan).
- All the cases were useful (Nigeria).
- Descriptive answers were useful (UAE).
- MR Breast cases were useful (South Africa).
- Typical images and detailed teaching was useful (Saudi Arabia).
- Useful class (India).
- Great collection of cases (Pakistan).
- Excellent (India).
- Very informative and encouraging session (UK).
- Very good session. Thank you (UK).
- Excellent lectures for exam FRCR 2B preparation (Pakistan).
- Excellent session (Türkiye).
- Being interactive and practical was useful (UK).
- Different modalities for imaging of breast were useful (Pakistan).
- Day to day cases dealt with their theory were useful (UAE).
- Interesting cases and the teaching was useful (Nigeria).
- Very informative (UK).
- Overall very good session (Pakistan).
- Very nice. Grateful (India).
- Brilliant session (UAE).
- Very good cases (UK).
